

*One Goal. One Priority. Your Healthcare.*

Dear Provider -

Arizona Priority Care has developed an extensive specialty care network to support the referral requirements of your patients. It is a contractual requirement that you use the Arizona Priority Care network for all of your specialty care consults. Any referral outside of our contracted specialty care network requires an authorization and could delay the treatment of your patient.

In order to assist you in identifying specialty providers within Arizona Priority Care's network, we are pleased to announce that we have updated our website, [www.azprioritycare.com](http://www.azprioritycare.com). The provider portal has our provider directory available to you online as well as offering easier access to other valuable tools and resources to you and your staff. Here is an example of just a few of the tools and resources that are now available online:

- Directory of Arizona Priority Care contracted physician network
- Fillable Prior Authorization Request forms
- Fillable Referral forms
- Plan formulary links
- List of Procedures requiring Prior Authorization
- Upcoming training events

We highly encourage you to view our updated website frequently as the resources and forms will be updated often as we continue to improve our processes. If there is a specialist not currently contracted with Arizona Priority Care, and with whom you would like us to contact about a contract, please advise your provider relations representative.

We sincerely appreciate your affiliation with Arizona Priority Care network and if you feel there is anything we can do to assist you and your practice, please call me directly at 480-499-8722.

Sincerely,

A handwritten signature in cursive script that reads 'Marie Cremisino'.

Marie Cremisino  
Director, Provider Network
